

Re: Don't encourage Cross-Ownership

I am very disturbed by your announcement to review and perhaps revoke the current FCC rule that restrains cross-ownership (e.g., Newspaper and Television station with same owner) in our communities. This would promote monopolistic practices, as well as discourage new media competitors. That outcome would clearly breach FCC's responsibility to facilitate open and fair communications access in America. Thank you for considering my comments, and please maintain the current cross-ownership restraints.

Sincerely,
Andrew Butz
